

# 24th International Conference on Artificial Neural Networks

15-19 September 2014 – Hamburg, Germany

## Aims and Scope

Annual flagship conference of the European Neural Network Society (ENNS).

Brings together researchers from two worlds: information sciences and neurosciences.

Wide scope, ranging from machine learning algorithms to models of real nervous systems.

Discussions on developing more intelligent computational systems and increasing our understanding of neural and cognitive processes in the brain.

## Keynotes Speakers

Chris Bishop (Cambridge & Edinburgh, UK)

Kevin Gurney (Sheffield, United Kingdom)

Barbara Hammer (Bielefeld, Germany)

Yann LeCun (New York, United States)

Jun Tani (Daejeon, Republic of Korea)

Paul Verschure (Barcelona, Spain)

## Special Session HMI

This year's ICANN will feature a special session on Human-Machine-Interaction!
